

Aboveground rainwater storage solutions **TITAN aqua**

Standard equipment:

- A very wide selection of tanks as regards the capacity, shape, texture and colour.
- Tanks have lids which are secured against unauthorized opening, e.g. by children.
- Each tank has a plastic or metal $\frac{3}{4}$ " tap allowing water collection.
- Material from which the tanks are made is UV-resistant, the tanks are stable.
- Larger tanks are protected against falling (to be fitted on a wall).
