

Bunded Pallet 1050 litres

Titan's 1050-litre Bunded Pallet is a spill-safe product made of medium-density polyethylene.

With high resistance and durable material assuring safe storage of containers with most chemical substances*.

The applied materials are 100% recyclable.

ADVANTAGES

- Suitable for TruckMaster[®] products and materials stored on Europallets (e.g. IBC containers).
- High resistance: maximum load of 2 tons.
- Mobility - specially shaped slots for forklift trucks.
- Safety - thanks to special design of the front wall, smaller storage containers can be filled while on the pallet.
- Guaranteed no leaks – no joints.
- Covered by a 5-year warranty.
- Manufactured in accordance with ISO 9001:2008 FM 57348 standard.

Product code	Capacity [l]	Length [m]	Width [m]	Height [m]	Max. load [t]
SDP010500R	1050	1.89	1.33	0.67	2

The dimensions may vary by +/- 1%.
