

SkipMaster

Skip container for the safe storage and transport of various materials

SkipMaster is available in 4 versions:

Version 1 - Wheeled SkipMaster equipped with:

- Lifting mechanism.
 - Two wheels.
 - Two rotating castors and a brake making the container easily manoeuvrable and protecting against unwanted motion during use.
- The container can easily be emptied to a trench or a deeper recess by tilting it manually over the front wheel axle.

Version 2 - Same as version 1 without wheels.

Version 3 - Only equipped with 4 wheels.
